KALAHASTHI VENKATA SUDHEER

+91 9398005772 venkatasudheerkalahasthi@gmail.com Portfolio GitHub LinkedIn

Professional Summary

Computer Science Engineer with a strong foundation in software development and hands-on experience in Core Java and Spring Boot. Experienced in developing web applications and RESTful services, with a focus on building efficient, scalable, and reliable software solutions. Strong problem-solving abilities and a passion for developing practical software solutions.

Education

QIS College of Engineering and Technology, Ongole, Andhra Pradesh **2024 – 2027**
Bachelor of Technology in Computer Science *CGPA: 8.3*

RISE Krishna Sai Polytechnic College, Valluru, Andhra Pradesh **2021 – 2024**
Diploma in Computer Science and Engineering *88%*

Z.P. High School, Jammulapalem, Andhra Pradesh **2020 – 2021**
SSC *99.8%*

Technical Skills

Programming Languages: Core Java, JavaScript, C
Frontend Technologies: HTML, CSS, React.js
Backend Technologies: Java, REST APIs
Databases: MySQL, MongoDB, PostgreSQL
Developer Tools: Git, GitHub, VS Code, Supabase, Postman
Automation & Workflow Tools: n8n
Core Computer Science: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Soft Skills: Communication, Problem Solving, Team Collaboration, Leadership

Experience

Google Student Ambassador 2025 **Jul 2025 – Dec 2025**

- Promoted Google developer technologies and learning resources through student outreach, encouraging awareness and adoption of developer tools.
- Organized and facilitated technical workshops, knowledge-sharing sessions, and developer-focused learning activities.
- Bridged the gap between students and developer communities by sharing hands-on learning opportunities, programming resources, and career-focused technical insights.

Projects

TrustPay – Client-Worker Escrow Platform

React.js, Node.js, Express.js, PostgreSQL, Prisma, Supabase, Socket.IO, JWT

- Developed a scalable full-stack escrow platform using React.js, Node.js, Express.js, and PostgreSQL, enabling client-worker collaboration through service requests, digital contracts, e-signatures, milestones, and transaction management.
- Implemented secure JWT-based authentication and Role-Based Access Control (RBAC) with dedicated Client, Worker, and Admin workflows, enforcing role-specific authorization across REST APIs.
- Engineered real-time communication using Socket.IO for collaboration requests, chat messaging, contract updates, notifications, and transaction events, enabling synchronized user interactions.
- Designed wallet and escrow transaction workflows for milestone-based funding, secure fund release, transaction history, invoice generation, and completion certificates with persistent database management.

DSA RankBoard – College Competitive Programming Platform

React.js, Node.js, Express.js, Supabase, Clerk, REST APIs, Web Scraping

- Developed a college-level DSA leaderboard that aggregates real-time problem-solving statistics from LeetCode, GeeksforGeeks, HackerRank, Codeforces, and CodeChef.
- Implemented a weighted scoring and ranking engine to calculate student performance and dynamically update leaderboard positions based on verified coding statistics.
- Built separate Student and Admin portals with Clerk authentication, student management, bulk Excel import, profile auditing, platform synchronization, and real-time leaderboard updates using Supabase.
- Developed a shareable achievement showcase displaying verified student rank, overall score, total problems solved, and platform-wise performance.

Certifications

- Certified in Core Java, DSA using Java, DBMS, Software Engineering and Agile Software Development, and Agile Scrum in Practice – Infosys Springboard
- Certified in Java – CodeTantra

Achievements

- Solved 500+ coding problems across LeetCode, HackerRank, GeeksforGeeks, and CodeChef.
- Achieved Google Arcade 2025 Season 2 Legend Tier.
- Selected as Student Ambassador at Google Developer Student Clubs (GDSC).
- Secured **Top 5** in Code for Bhwarat Season 2 Hackathon by developing and presenting a technology-driven solution.

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
